**MATERIAL:**
- INSERT: Molded Fiberglass filled thermosetting
- RETENTION CLIP: Berillium copper
- REAR GROMMET & INTERFACIAL SEAL: Fluorosilicone elastomer

**NOTES:**
- Environmental Insert for:
  - 6 ML or MT (mono-key) LuxCis optical contact (cavities: 2,3,6,7,10 and 11)
  - Size 16 crimp pin contact (cavities: 1,4,5,8,9 and 12) P/N: 617 235 003 for AWG 16-18-20
  - Size 16 crimp pin contact (cavities: 1,4,5,8,9 and 12) P/N: 617 235 002 for AWG 20-22-24

**Electrical characteristics:**
- Max current Amps: 10A for AWG16 wire
- Dielectric withstanding voltage:
  - Sea level: 1500Vrms; 50 000 feet: 600Vrms and 70 000 feet: 500Vrms

Refer to Luxcis maintenance document 503 085 90 before starting to use this product.

**DIMENSIONS:**
- mm (inch are given for information only)
